

left home. I started to walk very fast. I was just walking but I didn't know where I was going. Suddenly I became speechless I couldn't say a word. I started to think that I have to stop and think "What can I do now?".

It was a very hard decision for me. I was trying to find a way. But nothing was working. I walked all day. I came somewhere that I had never come before. There were different buildings and cafes. Everything looked like a pristine. The houses were dilapidated. Actually I got afraid of these old and different streets.

I took a deep breath and I turned back and I was shocked. There was an old woman and she was like a character who came from the Little Red Riding Hood movie. Her hair, face, voice reminded me of a witch. She mumbled "I know you. I know what your problem is and how you feel. I can understand everything from your hazel eyes. You can't hide the tears behind these hazel eyes. I will say you just one thing and after that you should go away from here. Deal?" I said "Deal" with a trembling voice.

"Growth is painful. Change is painful. But nothing is as painful as doing something you don't want. Never give up on something you really want. It's difficult to be patient but what is worse than being patient is being regretful. Now don't forget our deal and go."

I couldn't say anything. It was the most interesting event I have ever lived. I thought it was a sign from God.

From that moment I made up my mind. I won't give up my dreams. Whatever happens I will have my dreams live. I went back home. My parents were waiting for me. My father didn't look at my face. I didn't care. I started talking.

"I know you want to see me like a little girl and I know I am still your little girl. I love you so much and I never wanted to break your hearts. But now I'm about to reach my biggest dream. I worked hard. I flew like a phoenix, touched the clouds, fought like a warrior... I passed the exam and interviewed after all these efforts you said "No it's dangerous" I am sorry but I can't accept. If you support me I will be happy. But if you don't...

I will live my dream and I will be a pilot."

After this talking my dad hugged me and he said "You are my little girl and now you are my warrior. I will always be with you. Go and live your dreams."

Now I have a good life, a job and family. I have two children and I advise to my children just one thing "Work hard and never give up on your dreams."

HONESTY IS A VIRTUE

Honesty is one of the good qualities. An honest behavior means a behavior which is free from cheat and deceit. Honesty is based on truthfulness. It is free from all kinds of evil motives. In my opinion lying is not a good job to do. Thus I agree the statement honesty is the best policy.

It is said, "honesty is the best policy". Because if we are honest, people will believe us. They will give value to our words and dealings. We will have good friends, a great job and of course a good life to live. An honest shop-keeper will fetch more customers than a dishonest shop-keeper. A dishonest shop-keeper may be profited by cheating some people for sometime. So, an honest man prospers while a dishonest man falls down. They have a good position in the society. The honest men fare in all walks of life.

If we are not honest, others do not respect us. If we lie to someone for the first time, he or she may doubt at us next time. Not getting the belief, we easily fail to succeed in doing many things. Therefore, lying does not give us benefits. In the case that we are a good liar, we will. However, finally the truth may be found out. The next fact is that no one will trust us. Then come serious problems. For example, when I ask questions to my friend and get information which is not true. When I come to know the fact, I will not believe in her sayings for the next time. Unbelievable, she is of course a good friend at all. The friendship between her and me may become worse. I no longer respect the friend

Dishonesty can put those who lie in difficult situations. When the truth does come out things get bad and problems start to happen. For example, being dishonest in workplace causes coworkers to be not fond of working with us. The liar gets trouble in fulfilling his or her job with the coworkers. The fact that a person does not perform well enough in job can make him or her get fired.

Being honest give us comfortable feelings to our life. Liars often worry that the truth can be uncovered. They must remember things which are true and also other ones which are not. They must act so that others can not uncover the fact. In some situations, liars say the truth to these people but tell lies to the others. Therefore, they must bear in mine whom that she told the truth about the problem and whom she did not. Living such a life is a hard job to do.

Honesty is a virtue. If all people become honest, then our society will be an ideal society. The students should try to become honest in their day-to-day life. Because the students are the future of the country. Hence, they are expected to build an honest society for themselves and to leave a tradition of honesty for their future generation.

As can be seen, honesty is a good way to live. If we are honest, we are living in a realistic world of our own. Otherwise, we are living in our own play where we do not live our own life but act it.

THE ART OF GETTING BY

We live our lives coming across new people every day. By each word and every kindness, we make bonds. First we think they're doing fine, they are okay. But we don't feel any close to them or feel comfortable around them. Then we get to know them. And they turn into something so beautiful.

We all used to have this one friend, whom we could share anything with. Even when we don't tell them things, we still know that they are the only ones to actually listen. The one friend we were always confident stealing chocolates from. In public, when that one friend said something and we knew exactly what they meant, and we couldn't help our laughter. We knew we understood each other when one of the sides had the "i'm humming a song now which is called 'I'm so sad. I'm so very very sad.'" mood, or the happy look or the exhausted look. We knew exactly who they meant when they talked about hate or about mean people, because we knew who they had bad memories with. And back then, we all thought those days were never to come to an end. Well, at least I did.

Bad news everyone, time moves so fast. Life happens. We spend years trying to get with our plans. And then the next years trying to be with our friends again but things don't work out. Only memories stay the way we remember them. Time does its trick and it changes people, not just our friends but also us. Then all of a sudden you realise that what you had with them, it was a moment that comes and goes, and it is never to come again. Without even realising it, we drift apart from the people who used to be very near and dear to us. The bond we have gets vague, and we become strangers who know each other very well.

I believe, the worst thing that could ever happen to one is to lose that very special bond with a very particular person you counted as one of the most important reasons to make you happy that you walk the earth. Staying true to a friendship and not letting those people fade away from our lives, that is real art. That's being human. Caring for people and missing their space in your life when they are no longer there with you. Not being able to stop smiling when they are around because you are too happy to be with them.. The greatest thing we will ever learn out of life, is just to love. And be loved in return. And to never forget that we loved them once, why are we to be sad because it ended, instead of being happy that it happened? We should be able to say, when the time comes "Here's to you, my dear old friend, from way back when."

Nothing gets better than memories when all you have are memories for friends. I suppose this is a lyrics but might not be, I am not sure. Anyway, the point stands. Looking through the previous chapters all the time will not do good. We need to write new pages and live and love all over again but, we should also be faithful to those whom we once cared so much.

Life is not something to take seriously. There will be the days that we will be missing. But at the end we won't regret, nor forget. We will hold on to that memories, not letting them make us hate the present, and when all our days are done we'll just say "I had my fun."

can't open my eyelids. Maybe, it is so cold. Maybe, I am at the outside. I don't hear people's voice. Seriously, where I am?

There was wind. I can't walk. Anybody is not here. Because everyone has got a house. My mom is in her house, my dad is in his grave. Have I got brother or sister? I don't know. I am sitting on the bank. I am feeling cold, but who cares? Just imagine! You are in your house and you are sitting in your favorite sofa. Then suddenly, your mom calls to you, "Honey, let's eat something. First time, you are full and so you will sleep. This is so important for homeless children. But when you open your eyes, you hate everything. Furthermore you wanna die but it is better to go with a ship. At least, you still have too much dream.

There is all the tones of blue in the sky. I see little red. But there is darkness. I think, at the moment, I am in Çengelköy. I remember, when I am together with my mother, so before the earthquake, we went here. Because my dad used to work here. He was a captain. But now, my uncle is captain there. So, I think he is my stepdad now. The cold weather helps to think about by themselves. But it sometimes shakes.

If it is cold, and if you are in the outside, you should not sleep. You can learn these information from homeless kids. Because real life is here. Think! Your life is between of your eyelids. If you sleep, you will die.

And sometimes you are not on the bank. You are underground. But this time, you are hearing people's voices. They are crying. Or just, they are getting happy. Because that homeless boy is going at the endless. He won't open his eyes again.

UNFORTUNE WITNESS

woke up at the scream of the boy's voice. I feared and tumbled out of bed. I started to walk on the floor. Floor was so cold. I didn't understand where the voice came from. I continued to walk and I got out from the house. I went to garden. I couldn't see anything because it was night. I heard same voice again but the last one was the waxier than former. I started to follow the voice and I found, there were two men there. A man was so tall and big. He had a gun with mask on his head. I couldn't see his face but the other boy was smaller than that man with gun. I think he was 17 years old. There wasn't a mask and gun on his hand and face. I could see his face and I heard a gunshot. Tall man shot. I saw another boy. Tall man killed this boy. OMG. He is a killer. I started to run away but I fell down. Probably they heard me. Suddenly I hid a back of the house. I got in to house from the rear door. I sat on the stairs and I started to wait. I shuddered at the sound of door's voice. I stood up from the stairs. Increasingly, footstep approached. I put my hands between my head. I started to whimper in my own way. A hand touched me. After I said "Please, don't kill me. I swear, I don't tell anything to nobody, please please." It said "Ooo,honey. What happened, I'm here!" that was my mother. Okay! I'm good. After I said "Probably I saw nightmare, I'm sorry, I didn't want to wake you up. Now I'm okay, you can sleep." My mother said "Okay! I'm going but be careful please and go your room." And I said "Okay mom, good night" After my mother went to her room. I wonder if was it nihgtmare? And I went to my room. I got into the bed, I closed my eyes but I was still fearing. It couldn't be a nightmare. I stood up and looked out from the window. Summat caprioled got into the window and shut up my mouth. I started to cry. I feared so much. He was boy who was in the garden. He said "what if he will kill me or I will be in the prison. Please help me, I know you saw everything." He looked at me with appealing eyes.

SIBLING LOVE

Human being can't live without love. This feeling makes life livable. There are many kinds of love. I want to talk about sibling love which I have lived for for years ago.

Smallest in our home, my life happiness Kayra Nur. Connection between us came into being before she was born. It was impossible for me to explain the day she opened her eyes in the world, made our connection much stronger. I was getting full of feelings, like; mercy, admiration, composure, happiness, every time I looked to her. It is a special feeling for a people that being an elder sister indeed. It was a big experiment for me to see my sister's growing up phases beginning from her birth. It was a big advantage for an elder sister to see and support her first steps, first laughs, first words.

There was an another interesting feeling that was growing up inside of me; responsibility. Yes, I am living more carefully, for not to effect her to a wrong direction. I know that she is watching me and growing according to my behaviours. I'm seeking everything she needs in her daily life, for example about her books, about cartoons, about her meals etc...

I want her to be a good person, I will do my best. Maybe it seems tiring what I've explained to you, but believe me it has a big reward, when she says my sweet Şevval, everything stops. This love is priceless.

I felt weird in the costume and I felt a little bit excited. I left home at 10.30 am . While I was walking on the street , people were looking at me. Probably it was because of my costume . I felt afraid but some people wanted to take a photo with me and they supported me . I felt better . I was going to the cosplay meeting . I arrived there and I saw my friends , they shook their hands to me . We all wore our costumes . This was a cosplay meeting. It was my first cosplay meeting . Everyone was looking at us . I wore Thor's costume and they wore the other Marvel hero's costumes . We thought to make a video and share it on youtube . We went to the beach and we started to looking for an emty area . Suddenly the sky became darker and we heard a voice from the sky . We looked up . There was something big , I looked more carrefully and I saw a ship . I couldn't believe my eyes . Everybody was looking each other . They were trying to understand what's going on . There was a symbol on it . It was Avengers' ship . Then I saw shadows coming through us . The heroes started to jump from the ship . The real Thor came next to me and he looked carefully to me and he said "Hello dude !! AN UNFORGETTABLE HOLIDAY

Last year my family and I went to Erzurum. It was a wonderful experience. We started our journey from Karabük, because we wanted to take my grandmother with us.It took 2 days.

Our first stop was Kastamonu. It is really a small and lovely city. We went to the famous historical Kastamonu Castle. It was like a film plateau with its dungeons. We saw many old small houses and it felt like we stepped back in time. We had breakfast in a small restaurant. Then we went to Gerze in Sinop. Gerze is a small seaside town. The sea was so clean that we couldn't stand and jumped in the sea. We played sea ball, swam and made diving competition. My grandmother was so happy being with us. We were really tired. Fortunately, we had a caravan and we could sleep for a few hours while my father was driving the car. When I woke up we were in Bafra, Samsun. My father was asking a good restaurant. We ate Kir Pidesi in Bafra. We tasted traditional corn soup. They are special for Bafra. We wandered around tobacco fields. They were exciting. It was nearly night. We visited our relatives and decided to stay there. They were very hospitable.

After breakfast, we started our excellent journey again. We drove near the sea. In our left, there was Black Sea and in our right there were green hazelnut gardens. We stopped in a hazelnut garden to drink tea and rest. We were curious about Sümela Monestry in Trabzon. I was really surprised and amazed. It is in the mountain and you have to go there by car but we decided to walk. There was so much water and trees. The Monestry was very interesting.

After Trabzon, we didn't stop. Finally we arrived our target: Erzurum. I think it is a wonderful city. It has got a lot of natural wonders. We visited Ulu Mosque and other historical places. Then we went to Downtown, ate Cağ Kebap. It was very delicious. Erzurum is famous for Oltu Stone. It is a smooth, shiny and black stone. It is a little bit expensive. They make accessories for women and prayer beads for men. I bought small presents for my friends. We went to Palandöken but we couldn't ski because there was no snow. We stayed

at my grandparents' home. Then we visited the plateau. Its name was Hosbirik in Tortum. The plateau was very big and green and full of beautiful flowers. There were cows,

chickens, horses, rivers, lakes... We rode a horse. Especially I rode. I love horses so much. After we stayed 10 days in Erzurum, we came back home. I missed my home. It was an unforgettable and amazing holiday...

COURAGE

She went out from the hospital. Closely, her whole world came crashing down around her. Doctor's words rang in her mind...

"Unfortunately you are...you are cancer. It spreads quickly. I am sorry...but also it was diagnosed too late. Of course we will try to shatter it...but... I couldn't be sure whether we will be successful or not. It looks like it will be difficult for you and for us. Maybe...impossible."

She started to cry again. What is she going to do, now? How could she say it to her family? Who knows how they will grieve...

... 2 hours later...

"Hi, mom..."

"Hi, my beautiful daughter!"

"Mom, I have to talk with you."

"Of course. Let's go to the living room. Your dad is watching television there." "Welcome, honey! How was your day?"

"..."

"Our daughter wants to talk with us."

"Yes, we are listening to you, sweetheart"

She told everything to her family. They were very upset. Her mother started to cry. As she suspected, they were grieved. Her father said:

"We trust you. You can fight with this cancer. I am sure that you will win."

She gave up her hope. Even so she didn't want to distress her family. So, she decided to try it.

Next day she started her treatment. However, she didn't respond to treatment. Nevertheless she didn't give up.

She tried too much. She went a great number of hospitals. Even, she went different countries. Lastly she went to Spain. In there, she found a professor. He was famous for treating cancer. It was like a long marathon they managed to shatter it. She never gave up, and now, she achieved her goal. By courtesy of her effort, her family and her doctor...

HELPING OTHERS

Helping is a very important thing in our life. Helping other people makes the person happy and relax.

Human is a social entity. People communicate with other people by helping each other and this communication makes happy both of sides. After a while helping becomes an indispensable thing. Because a thank or a smile is as worth as world for the person who helps others.

The help never turns out crabs. Because the more you help others, the more they want to help you. The people who you helped them before, tries to help you. They want to solve your problem, in other words the person's problem who solved their problem. They want to be the solution of your problems and find ways to solve the problems. So helping is good for the person who helps others.

Everyone has different qualities. Someone can do something better than you and you can do another thing better than he/she. I mean everyone has things that he/she can do and can't do. So you can need other people helps. There is a good proverb about helping. "Many hands make light work." It is explaining importance of helping.

I tried to tell you helping is indispensable thing to be a good person and live happily.

Geniality, Smiling and A Smooth Tongue Is there anything that befits a human more than geniality? A person who has geniality, always has a pure ethic. A person like this is always nested to people. Everybody loves him/her. Also he/she is very tolerant. These three things are very necessary for people: to smile, to have geniality and a smooth tongue. Who wouldn't care about these? But unfortunately, it isn't always like that. I can say maybe "times have changed". People are no longer aware of what surrounds them. They don't really take care or pay attention to anything. "You can catch more flies with honey than with vinegar". Here, my purpose isn't vilifying our nation. There isn't much available for people who can't use a smooth tongue and have geniality. Also the basic reason for people being unable to taste life is, in my opinion the cruelty of the human self and the negative energy that is spread when they speak out.

How can a person be cruel to themselves? A person who doesn't know the meaning of smiling and not meeting with others can become a cold person.

PEGASUS CITY

Once upon time, there was a princess. This princess name's was Clara. Clara was very good and beautiful girl. But all of queens. In country queted disorder. So vengein said "I did seven games. The weather was rainy and foggy. I was walking in the narrow street. I couldn't find a taxi because it was too late. I wanted to go my home but I was a little bit anxious because there was no one in the street. Suddenly I stopped because I saw a headlight and I heard loud sound. I was afraid. Somebody said that: "Hey! Be careful."

Then a saw a red box on the sidewalk. I was indecisive. I approached the box and I opened it. There was a little black cat in the box and it looked very sweet and hungry. I took it and I looked around because I wanted to find a grocery store for feed the little black cat. Finally I found it and I bought a bottle of milk. I went to the main road to find a taxi because there was rainy too much. In this case, impossible to go home. Finally, I saw a taxi but it didn't take me. I felt sad. Now, I have to walk up to the my house.

Forty minutes later, I arrived my small but nice house. I took my keyring from my bag and I opened the door. Little cat was looking at me it was interesting, cat looked at my face and I felt sleepy. Then I decided to sit my cosy black rocking chair. Suddenly, I felt pain. Little black cat was clawing my hands! My hands were bleeding! I applied a plaster to my hands. But I forgave it. I went to kitchen and I found my old cat's food bowl. It was dead three years ago. Because it was ill. I poured some milk in the food bowl and I went to near black cat. Suddenly, I heard a voice. I was angry. Cat was so innocent but I was wrong. The little black cat was rebellious. Ahh! That was enough. Cat tore my favourite curtains. I

shouted and I tried to catch it but I couldn't. Cat crashed my bedside table and my favourite frame fell down. I put my mother's photo in this frame. In this picture, my mother and I were in the zoo. I looked at the frame and I remembered something. My mum always said:

"I want to give you some advice. Little black cats are bad my lovely daughter. If you see a little black cat don't take it. They can seem to you innocent and sweet. But you are an intelligent girl. Don't believe them."

I wondered. Why did she say that?

Then I felt a pain on my arm. I opened my eyes and I saw a nurse. Where was the little black cat? One minute. Where am I? Nurse said that "Be calm please, you are at the hospital. While you were walking in the street taxi driver couldn't see you and he crashed you. But don't worry. Now you are okay."

I said thanks and I looked at my hands. I was shock. There was a scar on my hand...

SURVIVORS

Before the everything started. We were so happy. We had a normal life. I forgot to say my name, I am Kristina Pimenova. I am fourteen years old. My friends and I live in Istanbul. I have got three friends; my best friend is Leonie Sterlin. She is 15 years old. She loves painting. And Christina Ronaldo is our friend after the 8.class. Christina Ronaldo always says: "I will be footballer in the future." He is 14 years old too. Our elder friend Kivanç Tatlıtuğ, he is 16 years old. And he was lazy in school subject only he is good at theater. He always says: "I will be an actor in the future." Allthing what we want be

in the future is only a dream for me. These are dreams that can't be real. Today our dream is survivor. All thing began in 31 October 2048(in Halloween).That wasn't an illness ,that was the End of the World, ZOMBIE VIRUS. In the same time my friends and I went to school. We began to go our home by school bus. When I came home, the door was open. I began to search my parents. When I looked the living room. I found my parents but my Mum was not my Mum. She was like a monster. My Mom was eating my dad in living room. I couldn't believe my eyes. I remember my dad's last word "Run Kristina run!!" I was angry about my Mom but I was so scared too.

I began to run to the street in the same time I heard my dad's scream. When I was far from my home. I sat on the ground and I closed my face with my hands and I began to cry...Somebody touched me and looked him. He was Ronaldo! I hugged him. I was so happy then I saw my friends Leonie and Kivanç, I hugged them too. I asked to my friends: "What happened here? What's going on?" They said:" We don't know either." Suddenly we saw a man with weapon, he ran to here and say: "Here is dangerous, when you want to life, you must run! They came to eat us!" Then he runs away from us. We run after him but he was so fast, we could not catch him. Then we stopped to run. When we looked the Man, some people liked my mum eating the man. After we saw a blue house near to us. We began to run. We waited to zombie people going away near the house. Leonie was hungry; she went to kitchen and search food. She found a sandwich. Suddenly I hear a voice, I remember this voice. This voice came from my cousin Angelina. The voices came in the living room from the house. I saw my uncle but my uncle is like my Mum a zombie. He tried to attack my cousin I ran to my cousin and struggle to help her. I push my uncle ground then he was angry to me, he came to attacking me. Suddenly Leonie came and take the knife and try to sticking his body, but he isn't dead. He walks to us. Then Leonie stick the knife in his head. She says:"I saw this technic in a zombie movie." After that I asked to my cousin, what make you here?, what happened?, where is your family?... She began to talk her story:

"When I went thome, I knocked the door but nobody opened the door. When I looked the door, it was open. Then I heard a voice, I went there. Then I saw my mother and my brother, they did not look like human. They were zombie. They attacked to my dad then me. My dad ran to me and he took my hand and began to running the street. When we saw the zombie people in front of us. We ran to this house but my dad was bitten in his leg. After he was a zombie... Thank you very much cousin when you don't help me, I was a zombie." think my dad's scream. And my mother ate him in alive. My mother's face, my father's face... I wish this they were a dream, a horrible dream.

THE HONEST

My name is Merve. I am 21 years old. I graduated from university but I didn't find a good work.

I am a waiter. I work in a cosy and special cafe. I like cafe but i don't like my boss. Everyone hates him. If you are late or you quarrel with customers, he dismisses you. Because he thinks that "Customers are always right."

Today: I am getting up early. I am having breakfast and washing the dishes. I am wearing my clothes. I am going out of the home to go to cafe. I see a purse in the middle of the Street while I am going to bus stop. I am taking and looking into the purse. There are lots of money in it. I am confused. My gut is telling me" You should use the money. This money saves your life." But I must use my brain. I was not bad. I was not a thief. Now; I shouldn't use that money and and I should give it money's owner.

I am going to police officcer. One lady is watching around sadly. One police is coming to me and he is saying" Yes, how can I help you?" " I saw a purse when I walked and Ibrought it to you." " Ok! We are going to find purse's owner."

He is going to a room. After he is turning back and he is giving it to the lady. He is coming to me and he is saying" The lady came here to lost her purse. We asked questions and we understood the purse at the lady. By the way she wants to meet with you." " Ok! Bye."

I went to near her. She is saying" Hello. My name is Leyla Er. I have got a famous company and I need a personnel. Also I am appreciating to you. If you need work, please you call me. " Okey. Thank you.

I am going to cafe and I am encauntering my boss. He is very nervous. He is saying" You are late. If you make any make mistake, I dismiss you!"

After one customer is coming and sitting on the chair. She is calling me and she is saying "I want a cup of coffee." I am giving coffee to her. She is drinking coffee and she is saying "oh! It is very hot. I want a new coffee." I am changing it. She is saying "It is cold. Bring new coffee!" I am getting angry but I am not doing anything. I am giving new coffee to her. She is saying "It is very sugary coffee. Call your boss to me." I am really getting angry and I am pouring coffee on her clothes. She is screaming and my boss is coming here. He is saying "What's going on here? What do you do?" she is telling everything and my boss is getting angry to me. He is saying "You're fired!!!"

After I remember Mrs. Er's words when I go home. I call her. I am telling everything and I am saying "I accept your proposal."

In this way, a paper appeared in front of us. Paper said that you find a password and save her. Then me:

Everybody shocked. Then, we tried a lot of number and eventually, we found password. Password was Elice's old boyfriend date of death. At once, we went to her near but she already died.. And I began to cry and I looked her hand and I shocked. He wrote on her hand:

A CLICHÉ ABOUT CLICHÉS

-Sir, can I ask a question?

-Yeah, sure!

-But haven't it turned out to be a cliché to ask you questions?

-What are you talking about my boy just ask your question.

-Ok, so here we go: Now sir, I understand that there are many clichés around the world but can't

the explanation of the word cliché itself become a cliché?

-Are you kidding me? Come on I've got work to do

-Oh, I don't get it, this question wasn't a cliché so why are you angry with me?

-Look at me boy, the questions should be about clichés so that I can answer them easily and don't have to find answers that are not clichés.

-OK then, now I've got a more suitable question. What is really a cliché?

- I thought you knew it. Anyway I will explain it to you A cliché is an expression, idea, or element of an artistic work which has become overused to the point of losing its original meaning or effect, even to the point of being trite or irritating, especially when at some earlier time it was considered meaningful or novel.

-Oh, like the idea of death, or the idea of love

-Well, not exactly... Actually it is about how you express those ideas, because what impresses people are your expressions. Think of this, it is better to see a novel metaphor about life, than an old one.

-Oh, then I have to think about new things when I'm dying in order to make people care.

-Not the people my boy, the customers.

-Customers of my death? How great!

-No, no! Customers of the ideas you've left behind. When there is enough ideas, customers will feel more freedom. Statistics my boy became boring. Statistics have got too many layers to deal with...

-On the other hand, if you have got a row of ideas ready in front of you, you don't have to face any of them, it is easy to catch a glimpse and go on living. Right?

-What do you mean by facing?

-Facing a question my sir, what you did when you got angry about my very first question. You weren't just an ambassador. You weren't just buying me a gift from the ideas shop with the money of those who produce the ideas. You needed to produce something, you were restricted to one correct option to work out the question by yourself which is a turmoil indeed.

-You know what? I forgot but, I've got an important cliché to do. See you later alligator... -For a while crocodile...

"Guys and girls I hope this piece of writing has turned out to be a cliché, because if it hasn't then this means the content is contradicting with the topic, and only bad authors who have nothing to write other than clichés do this mistake in their writings."

AQUILA NON CAPIT MUSCAS (EAGLES NEVER HUNT FLEAS)

"When I entered the apartment, I saw the man who had a beard. He was bald. That's all I can remember Mr Officer." Said the young lady. She was an attractive and good-looking woman if you ask my opinion. Because she looked like a rich woman, when I heard that she lived there I was shocked. By the way, let's start the story.

My name is Erstan Malwick. I started working in 2001 and this is the last murder interview I've done. It was such a nice November day in London:

"Malwick, Malwick!" I recoiled. "This was the tenth time I said." Said my partner Franky. His name was Francis, but we called him Franky. He found some evidence and reports which were narrated by baker Cole. It was about the bearded man's flight details. But there were some mistakes. Because he was an ambitious murderer and he always cleared his victim's bodies and history. I had known him since my obligatory duty in Lebanon. He killed 9 people in Lebanon Independence Square. Nobody knew him better I did. I buttoned my jacket and shouted at Franky.

“We must go to Heathrow before his guards” “Guards?” he said. “What do you mean?” “He’s a careful man so he is going to send his guards before he goes to the Heathrow.” I said proudly. “Damn it! I should have known” Franky said. “If you had known earlier than me, you wouldn’t be my

assisstant.” I said and called a taxi.

When we arrived to the Heathrow, I saw two men in front of the International Flight gate. And I saw the woman whom I interviewed. It was a rude awakening for me. I called the M15 immediately. Franky started to chase the red girl. Before she entered X-Ray Franky cut across her path, drew his gun, and then all the airport guards got alarmed. We arrested all suspects and took them to the police station. I managed to catch his cartels. He looked at me and congratulated me in Arabic . And I said my last sentence to him; “ Yes, but don’t forget! Aquila non capit Muscas! Veni Vidi Vici!”

A Difficult Day

Yesterday I woke up at 9 a.m. But there was a problem. My work starts at 8 a.m! I was late for work and it was all my old clock’s fault. I went to the kitchen to eat something. I opened the fridge and oopps! There wasn’t anything to eat in the fridge! So I went outside to go to work. I went to my garage, got in the car and there was an awful surprise for me. My car didn’t work! I looked at my watch. It was 9:30 a.m! I had to run to the bus stop to catch the last bus. I started to run. Finally I arrived to the bus stop but it was empty. I missed the bus! Then I started to walk to go to work. And suddenly it started to rain! The rain and the wind were so strong and I couldn’t see anything because of them. So I couldn’t see the big hole in front of me and I fell in it! It was full of water and when I fell in it my office bag opened and all my papers about my customers fell in to the water. I climbed up the hole and I walked again. I wanted to call my boss to say some lies about being late. I opened my other bag and I saw that my cellphone and wallet had gone! I was shocked and I started to laugh. While I was laughing a weird dog came and bit my leg! I went to the hospital but there wasn’t a doctor in the hospital. They were at their friend’s wedding. Finally they came, they looked my leg and they gave me some medicines and painkillers. After that I went to home. I just wanted to sleep a bit. It is the worst day ever.

They take back the dress and went to house. They hid the dress, and for finding it; they prepared a map for it.

A MYSTERIOUS COUNTRY

It was a cold December day. New year was coming and I wanted to do shopping for my friends, I asked permission from my mum .She was in the kitchen, she said "Yes" and I went upstairs and entered into my room. I opened the door of my wardrobe and chose a few clothes. When I turned back to try them, I saw an amazing light in my room. I could not believe my eyes, my earth shaped lamp began to turn fast and finally it stopped. When I went closer to it, I saw a country, which was shinning; it gave a bright light into my room. I read its name and I did not hear a country like this before .

"GALLIFREY" Its name was this. Suddenly I became smaller and I went to the country but I did not know how. I saw huge houses, purple trees, animals in the streets, mountains made in chocolate, big lovely candy elevators going up to the pink sky and golden roads. I was shocked .I wanted to learn about this country .I wondered what they did how they survived and I wanted to learn the answer of these questions but unfortunately, people who were from this country didn't talk my language. I couldn't understand them. Finally, I found two people; they could speak my language so I had to talk to them to learn answer of questions.

OH MY GOD ! What was this ? One of them was Matthew, I knew him for 4 years. He had got fair hair, he was tall and he was sympathetic and handsome. The other one was Jessica, she was cool, she was wearing lovely and fashionable clothes and she loved pink so much .They were really helpful and told me about Gallifrey. That country was a magic one. They had a powerful king and they were all happy. The people there always sang songs and danced.

I also asked what for these elevators?" and he answered "You get on them and you can transport everywhere in the country. They are like tubes." and "Have you got other questions," he asked.

I said "Actually I want to ask a special question to you, How can I go back to my room? I do not want to stay here.I want go back my home, my town."

He smiled and said "Ohh that's easy .You must turn and turn and turn around yourself for five times and say ; back home ,back home ,back home "and you will be back home"

I did what he said and I was suddenly in my room. I was very happy. Yes it was a spectacular experience but I ran downstairs and hug my mum and I said "I love you so much" She smiled and replied "Me, too".

INTERESTING DREAM.

I am Zeynep Arslan. I was 14 and I lived in Demirköy,Bilecik. My home was far to my school so I used to go to school by worker bus. I just went to my house to sleep, I was almost living at school .I used to have breakfast, lunch and dinner, I lie down, do sports or sleep there. The classroom and

school were my home. Sometimes, I didn't see my family for one or two days because I left my home very early and I arrived my home too late. Also my schoolbag was very heavy because I had lots of books. Sometimes, I gave up, but I could go on and I believed in to success.

I really had difficulties for example one day it was snowy, misty and very cold. I woke up before the sunrise. I had breakfast and put on my school uniform. I took my heavy schoolbag and I left my home. I walked about 3 minutes and I caught the worker bus. I came to Bozüyük. I walked about 15-25 minutes up the hill. It was very cold but I sweated. It was very hard for me with my heavy schoolbag. After that trek I, I arrived my school. The school started at 7 am but I went to school at 7.45 am so I was very late as usual. Also my nickname was 'Late Zeyno'. Then I hurried to study. And I apologized my teacher .

Also my friends helped me when I needed help and when my friends needed help ,I helped them. I love my friends. They were like my brothers and sisters. I had 6 lessons during a day at school, that was great for a student because we didn't feel tired. School finished at 12.30 pm. Then I set off school to go to schoolroom. I used to go to Pidebank to have lunch and dinner. Then I came to schoolroom. I had lunch and I lay down to have a rest.

Again one day My best friends - Yeliz,Selma,Sena,Ahsen and I were at school room on Saturday and we decided to go to picnic. We prepared delicious food and we bought some beverage . Next morning, when schoolroom finished we went to picnic. It was sunny and clear. We chose the best place to picnic. And we prepared our picnic table. We ate tasty food also we collected some wood to make tea on fire .We decided to climb at the nearest hill but we couldn't come back because we were lost. We were afraid . Also our parents were very anxious because our phones lost connection on the hill. Then we heard a scary laugh and we saw a huge shade. We hugged each of us . Then a huge wolf appeared. It wanted to eat us and it wanted to have our magic. We knew what we do. Our hearts ,brains, hands and our magic joined. Yeliz was flexible girl and she jumped everywhere. She put on black coat, her cape was black and she put on dark boots. The colour of her hair was black and straight. Selma was a long girl also her hair was long. She put on pink dress and when she turned around herself storm started. Sena had blue eyes and fair hair. She put on blue long dress. When Sena looked something it froze. Selma Sena wore orange jumper , her brain was unusual so she had visual ability. Ahsen was a beautiful girl. She put on yellow dress and her hair was blonde. When she wanted to disappear, she could disappear. And I wore purple dress and I told magic stick. When I touched something it became purple. We fight with huge wolf. It was very difficult and compulsive but we believed to be successful. We fought about 2 hours. At the end , we won and we came back our house. Interesting, Our family didn't get angry because we refresh their memory and they didn't remember about this event.

A few minutes later I heard Hilal teacher's voice and I woke up . Hilal Teacher said " Let's go to your class, the lessons have just started." It was only interesting dream.

FINN STUDENTS

I was assigned as a teacher to find a solution and investigate for the failure of students in my country. I found lots of information about this and I learnt Finland has got the best education system in the world. So I thought ; If I go there ,I can find the real problem about our education system. 2 days later ,I booked a ticket. The train departed from Sweden to Finland. When I arrived there, it was too early. So I went to hotel and had some rest. At 9 a.m. ,I phoned my headmaster for giving information about situation. He said that he contacted teachers at school in Finland. I took a taxi and I gave the address to the driver. When I went to school ,I was excited and enthusiastic. I met the teachers. They were so polite. The first thing that I did was examining the classes. I was at elementary school. The classes were smaller than ours. And there were music instruments, pictures instead of boring math or science formulas on the walls. I stayed in school canteen and I began to talk to a student:

-How old were you? when did you begin to go to school?

-I was 7

-Are your lessons boring? Do you like being at school?

-Yes, I like very much. Because: We do here what we want to do.

-I didn't understand. What do you mean? For example, Can you go outside during the lesson If you want?

-No, I didn't mean this. We choose the lessons about our abilities. If we love drawing ,we learn about how to draw. We improve our abilities at school.

-How many lessons do you have in a day?

-We have 4 lessons.

Then she said, "My dad came here. We are going to watch basket show tonight. I have to go." I said, "Goodbye, thanks for talking."Suddenly she came back and said, "Maybe, you want to meet him. He is a teacher too."I went. And I was surprised. He was Paul. Paul was my best friend in high school and university. We were close friends. He was surprised too. Then said,"Heyy!!My friend, What are you doing here ?Anyway , I missed you so much."We laughed and I began to tell, "I have a project about the education system in Sweden. Now I am here to understand Finn Students' learning way."We talked a lot. Then I went back Sweden ,1 day later.

When I was at the meeting ,I didn't have a solution. I was desperate. Suddenly, The headmaster said to me ,"I really liked your idea Mr. Carpet. To build a school and teach the lessons according to Finn Education system is nice . Firstly, The children who are 7 will start to go to this school. If they can be better than students at other schools. We will continue in this education way." I was confused. I only could say, "Okay , Thank you. " But I didn't understand how it happened. I went out and my phone rang. It was from Paul. He said:- I sent a mail to your school about a project. Last night; I remembered your project and wanted to support you. In fact ,The Finland Government wanted me to do it. Because: They want to introduce their system to the world "I accepted all ideas of him. Around 8 months later , Our new school became ready for students. Now ,I am a teacher at this school. And everything is wonderful. The students don't hate school and they learn easily. In fact we won the most important thing. We made them happy students. Our purpose was that. Because our slogan is "To grow a happy generation is more important than to grow successful generation"

A REAL HORROR STORY

When I was eleven years old ,I was staying with my grandmother in an old cottage in the forest for summers. The forest was dark and horrible. There were no houses near her house. I didn't have friends. I used to hike in the mountains.

One night I wanted to go out, because it was a boring night. It was hot and sticky. My grandmother was knitting a scarf for me.

"Where are you going?"said my grandmother.

"To the forest "I said.

"But it is getting dark! And a storm is coming .It can be foggy. All the spiders and worms come out when there is a storm. Don't go near them and please do not touch them. "she said.

I went out and I walked through the long trees. I was walking down the forest when I saw lots of spiders. I wasn't scared. I went near them and touched them. Then I remembered what my grandma said.

But too late!!My teeth turned pink and there were lots of worms on my body. Also there were purple cockroaches on my head. I screamed and ran into the forest. I saw a skeleton hanging on a tree and ran again then I saw a huge green monster in the middle of the forest. It was horrible. It had a fish's head ,a monkey's body and cow's legs. Also there was an ugly alien behind the rock. They were friends. I was shocked and stood still.

The monster came near me and said" Hello Pinky!"He laughed at me . First I didn't understand and then I realized I was also like a monster because I touched the spiders at a windy night. I had pink teeth. Oh my God !!!! Worms and cockroaches were not on my body but I was dirty. My hair was terrible.

I said " Hello ,Where am I? Who are you ?"

It said " In the deep forest!!! I am Shrek." We talked with him for a long time. Later we became friends ,too. Then he introduced me with the alien.

The alien was from planet Bilbo -5. Bilbo-5 was a rocky and hot planet so the alien could light fire with its hands. It could also walk on the water. It could swing on the trees and run very quickly across water to escape.

Now I live with the monster for my summer holidays and the alien visits us every weekend. We hang out and have fun together. We sometimes play hide and seek.

And when it is dark and stormy I go into the forest and scare people with my friends.

MY DREAM

I like reading books. There are a lot of books in my library. I buy a book every week. One day When I was in the city library I found a book. This book was really interesting for me. The book was about a fantastic story. There were a lot of fairies in the book. Nature fairy, water fairy, sky fairy... They saved the world. They were very cute. Fairies were strong.

Book was shining ,suddenly a fairy came out of the book and I was afraid. A girl said “ Hey! are you coming now!” I said “where?” She said “Into this book.” This is impossible! Oh my God! She is a fairy.

Fairy said “No, nothing is impossible.” I closed my eyes. I was in the book now. Everything was wonderful there. There were colourful trees, chocolate waterfalls, sugar clouds, candy houses and a lot of fairies... There were also juice rivers .

The same fairy said “My name is Arianna. Welcome to our world.” I

said “My name is Catherin. Why am I here?” I really wonder.

Arianna said “ Because you can help us. Please help us”

I said" What?! How I can help you? I am 15 years old yet".
Come here Catherin. They are my sisters. Their names are Chloe, Ashley, Diana.” Arianna said “

I said “Nice to meet you.”

Arianna said “ “ We fight against Fernando. Fernando is a very bad witch. We hate him. He wants to kill us and he wants to control the world. You are going to stop him. Can you? You have great power’.

I said "Who? Me? No, no... I am only a young girl" but Arianna couldn't hear me. We went to Fernando's hut together.

Fernando said “ Welcome to my palace! Fairies are doing magic. I fly in the sky.” He smiled. He said "Lots of books can fly. They are very big books and books are talking to me! “Can you help me please?”

I said “Oh, yes of course.’ ‘Fernando was a prisoner in one of the books. He wasn't a witch , he was innocent. I took him and now he was out of the book. All fairies applauded me. I was very happy now. Now they were all free. I helped them. We flew with them through the nice wood.

“Catherine! Hey, Catherine! Are you getting up honey?” My mum wakes up me. OMG! Everything was dream. I read a book and I slept. This dream was wonderful !...

HOPE

The weather was rainy and dark. When the clock struck at 4 pm. Teresa woke up and looked around .Yesterday, she was in studio, she recorded new songs so she was tired and came home at 6 a.m. She slept a lot. There was nobody at home. She thought " Carla went shopping". Carla is her elderly sister. She stood up and looked through the window. She put on her coat but she didn't change her pyjamas. She walked in the street for an hour. She saw lots of people around. She watched their faces. Some people were confused. Some people were excited. Some people were sad. And Teresa didn't know anything. She used to love her job but this made her so tired, she worked a lot and had some problems about her health. She used to love singing.

Suddenly; she saw a little boy. He was crying near the way. Teresa went beside him. She asked ; Why are you crying? Where are your parents? He didn't reply. She asked again. Then he said;" I couldn't save her". Teresa thought: He looks about 8-9 years. Who can save him? Teresa asked What are you doing here? He said " why are you talking to me? Go away!

Teresa got angry and said: Okay! I'm going but I'm sure you cannot find someone who wants to take care to you and helps you"

She began to walk. Suddenly she remembered something about her childhood. When her parents shouted each other. She used to go out and sit somewhere around and she used to cry.

She took a deep breath and went back near the little boy. He didn't care about her. She began to speak: Look! I don't know, what happened to you? who made you sad and why are you crying? but I don't care these. I just want to help you. I'm asking about your problem. Because: I'm human and you are human too. I'm 27 and I think you are 8-9 but it doesn't mean we cannot be friends. So just tell " What happened to you? " If you don't. I will never go back my home."

He looked her eyes and said: I couldn't save her. She was too young. She was frightened and wanted me to help but I couldn't "

They talked for an hour and Teresa learnt these a lot about him;

" In fact. He had a family and he didn't have to save someone . Teresa met her family and his family said his problems about his mind. He always imagined bad events and left home and cried.

7-8 months later. She took him from his house and they went to Teresa's studio. The little boy wrote a song about people and monsters. It was wonderful. Everybody liked it and he began to sing. Teresa and little boy went to studio every day. They wrote new songs and sang. The little boy got better and got rid of horrible dreams. Teresa realized that: if there is one needs to help and if you know this. Don't ignore and give hope.

YEAR 3034 AND THE PLANET MOOP

It was the year 3034.The world changed. We were on the way to visit the planet Moop. It is a planet in a far way galaxy. Our huge and well equipped spaceship flew for months and months past planets, stars and galaxies. Our spaceship sometimes could be invisible .And that helped to escape from dangerous positions. We would also visit Planet Smote 222.

At the end we arrived to the target planet. We opened the door of the spaceship and looked out. It was a wet planet. Everywhere was full of a kind of liquid. We threw a bucket and took some of it. It wasn't water. Also there were orange rocks everywhere. There were many deep craters on the surface. We wore our space suits and big space shoes and went out.

We began to walk on the surface. The liquid was not deep. We could walk on it. We could smell a very bad gas.

Suddenly I saw an alien behind a rock. It was hairy and purple. It had strange ears on his head. He waved us and tried to say something but we couldn't understand his words. It was an interesting sound. Then I opened my translator. By my translator I could understand five hundred languages .

He shouted "Help! help ! Help me !"

I couldn't understand him and asked "Why ? What happened ?"

He said " Some astronauts from another planet came here and killed all my people. I escaped. Now in the planet only I am alive"

I was shocked and asked " How can I help you ?"

He said " Don't waste time!!! I need to escape .They are coming!!We can't stay in this planet" Suddenly we saw the astronauts. They were like giants. They had guns.

We all ran to our huge spaceship and jumped in. We also pulled the lovely purple alien into the spaceship. Our captain quickly flew our spaceship away.

The astronauts were below , they were trying to shoot us but they failed. We flew up and left the planet. On the way the hairy purple alien told us about his planet Moop and that faraway galaxy.

He also told about Smote 222 ,he said that planet was dry and lots of plants were living there. But these plants could eat humans. They were very dangerous. They had different colors .Every plant had different specialty. For example the grey plants could throw pins and the blue ones could trap and kill prey by their poisoned leaves.

We decided not to go to Smote 222 because we could not fight with these plants. We flew back to Earth.
